## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 12-15 and 17-21 are allowed over prior art.
2. In view of the amendment and remarks dated 9/8/03, the application is in condition for allowance. One of the reasons for allowance of claims 12 and 17 is the inclusion of detecting the instant of commutation of a direct current motor by comparing an induced voltage to a reference voltage that rises in a shape of a parabola; and one of the reasons for allowing claim 21 is the inclusion of a calculating means that produces a variable based on a setpoint speed of a DC motor, wherein said variable is fed to a commutation shift unit that changes a reference voltage in accordance to a specific curve and to a commutation logic means that adapts a current supply to the stator winding phases of the motor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
